

After reading the minutes, first I would like to know if letters of notification were sent out to all the violations that were mentioned. If not, they need to be. Not all home owners go to the Web page to read and even then they won't correct without a letter.

Second, what will be done about the shed if not sold and just how long will the board allow it.

Third, it is this board's judiciary obligation to uphold all deed restrictions no matter whose feelings are hurt.

Fourth, the word harmony should've never been used as a loophole to allow the shed in the first place. One mistake after another was made instead of just one board member letting them know the deed restrictions don't allow it. No blue prints were ever given to the board for approval. Thank you for listening to my rant and your service.

Tim Strausbaugh

PS On a positive side, I would like to volunteer to be on the landscape committee.
